Best bang for the buck.

I made the mistake of trading my Martyr's Bounty card.. sadly, boring as hell. 02/10. Ehhh... I don't know. It's just average. It's an average platformer that plays similarly, but much worse than Super Meat Boy. The block is very slippery - it feels as though you are on ice, and the jumping is inconsistent. The other thing I really don't like is this game has over 160 achievements and 90% of them are based on collecting letters in the levels. But the problem is many of the letters are placed in spots that guarantees you death forcing you to replay the level. And the fact that you keep the letter after dying just proves that. Then you have to redo the level a few times to get all the letters before continuing on (if you want the achievements). The problem with that is the Devs PixelMouse are "extending" the duration of this game by doing that but in a very boring and unimaginative way. There are 30 levels and I've done 10 to completion in about 45minutes, so this game would only last you 3 hours max. But it's not worth your time really. There are many better platformers out there like SMB, FEZ, Braid, Cave Story, Mega Man, etc.. Helps kill time waiting for that inevitable Hotline Miami 3 announcement. dis game harder than a mu♥♥♥♥a man but it's cool.

This has got to be the absolute worst game I have EVER played. Whoever made this ♥♥♥♥♥♥♥♥t needs to stop.. Such a Good Game :D Good for those who find Science Interesting. Very fun. Very dizzying. Need to go sit down.. I'm looking new space 4x game what I want to play, Space Empires V was fun. but something was missing- it's old, Galactic Civilizations III map sucks. are those really star systems? no way! Star Ruler 2 I love map, I can make galaxy with freaking 6000 stars YESS!! but I don't like ships... and everything is too easy... just take ship and wola planet is yours. Star Drive is good but short and epic? endgame battles crash game. Star Drive 2 I love WAR!? each m%#) & %%# faction is at war with me and more! there are pirates and other suckers who want to kill me. pff. Predestination planet management is SUPER, colonising new planets is SUPER. tech tree is... too easy more harder choices! but so far I LOVE IT!. Pretty fun, pretty cheap.. i like the fact that the sniper is more stable and feels different but i had high hopes in the raptor , but the raptor is as good as any other guns so , saying that i hope you guys actually improve on the gun because it cost alot of money .. buggy boring game. This game is a lot of the same thing as the 7th Guest. If you played and liked that game, I would imagine you would like this one as well.. troll comedy shooting game

flashy effect... or maybe too flashy...

I recommend for the fun !
